Written/oral Mediation

You grandmother Beth has just started using *WhatsApp*. She's very delighted with this app. However, she's still a little confused about the feelings and emotions some emojis stand for.

You decide to write a *WhatsApp* message to explain the meaning of these emojis to her. Give examples of situations in which she can use them. Choose at least 5 emojis for your *WhatsApp* message.

E.g. This emoji means that you are happy/getting bored. We use this emoji when you want to express you are very sad/upset/angry.
